green energy ³ to the power

Three Exhibitions for biomass and waste to energy dovetailed into one !

The Bioenergy Pathways

Drawing from across the full spectrum of biomass and waste streams, bioenergy can sustainably produce the complete mix of fuels in solid, liquid and gaseous forms on which we depend every day. The Bioenergy Pathways illustrate **the full scope of the three exhibitions**. The crisscross of biomass to energy pathways show the multiple ways in which we can harness the calorific content of biomass and waste to render it useful, in a clean and sustainable way.

A NORDIC PAVILLION hosting Denmark, Finland, Norway, Sweden and Iceland will bring the exemplary bioenergy know-how of the Nordic region to Nantes in 2020.

Featuring a spacious B2B exchange area hosted by leading Nordic bioenergy names and a dedicated conference platform and programme, the Nordic pavilion will spotlight the exemplary achievements to date in the bioenergy field across the Nordic region and layout a vision for a clean, green world. Starting now.

The NORDICS - Country of the Year 2020

Biointegrated – the Nordic way

Nantes 2020 in a nutshell

Who Exhibits ?

400+ bioenergy movers and shakers from across all of Europe are expected to exhibit in Nantes in 2020.

Who Visits ?

The key decision makers – 5000 professional visitors anticipated over the two days covering all aspects of bioenergy and policy.

Who speaks ?

100 international conferences speakers (french / english) – topical subjects, exemplary world first projects and future bioenergy perspectives are all embedded in a rich programme of international conferences covering the two days (simultaneous translation French/English is provided)

What's buzzing ?

Innovation is key – trail blazing world firsts, the exhibitors corner and the Innovation Competition are just three of the ways innovation is brought into the limelight.

What to see ?

See it for real – participate in a study tour on Tuesday the 28th January and visit the latest bioenergy installations in the Pays de la Loire region.

Who to meet ?

I'd like to meet – pre-book meetings in the international business meeting lounge with professionals matching your "I'd like to meet" search profile.

We're Looking for Your World Firsts !
Do you have a 2020 Bioenergy World First that you would like to present ? *Let's talk !*
